MANHOLE SEWAGE PIPE CLEANING ROBOT (MSPCR -I)

This Product removes blockages occurring in Manhole Sewer Pipes. It goes vertically down inside manholes and a robot unit goes inside the sewer pipe and clears the blockage.

- Robot can operate in any manhole conditions in India.
- Automatic & manual operation are implemented.
- Detection of blockage with camera is incorporated.
- Robot will enter and remove the waste from sewer pipe of any dimension (9 inches to 13 inches).
- Rugged to clear the blockages such as bricks, stones, slurry etc.
- Easy maintenance.
- Portable
- Low cost compared to other cleaning machines
